# Leah Griffin

Hello, My name is **Leah Griffin** my major is Biology and I want to do something that has to do with the medical field. I enjoy the connections made while tutoring someone. Being able to aid them in what they need help with and seeing the tutee afterwards in the hallway and them expressing how much you have helped them. I enjoy tutoring in my field because it can be challenging, especially for first years, so if I can take a little pressure off them I know I am being helpful. Also watching someone get a concept they have been struggling in for a while is rewarding for both the tutor and tutee. I am involved in the black student union, the honors program and the PASS program. I am also a student ambassador. In my free time I like to hang out with my friends and listen to music. The classes that I tutor are Bio 212, Bio 231m Chem 211, Chem 212.
